EDUCATION

2019-2023
BE Computer Engineering
CGPA: 8.54
St. John College of Engineering

2019
HSC (Science)
Percentage : 63.23%
Utkarsha Jr. College

2017
SSC
Percentage : 86.80%
Vidya Vihar English High School

SKILLS

- HTML
- CSS
- Javascript
- Python
- MySQL
- ML
- React
- UI/UX
- Tableau
- Software Testing

CHIRAG GANESH PATIL

Web Developer

With a passion for clean and functional design, I strive to create web applications that not only meet but exceed client expectations.

Experience

Dec 2022 - Apr 2023
iNeuron Intelligence Pvt Ltd
Web Development Intern

- I utilized Node.js, EJS, MongoDB, HTML, CSS, and Bootstrap for both front-end and back-end development to create a user-friendly platform promoting healthy eating.
- This involved setting up Node.js and MongoDB for data management, while using EJS, HTML, CSS, and Bootstrap to design an engaging interface.
- The result was an optimized, performance-driven platform that allowed users to track their dietary choices and meet their health goals effectively.

Academic Projects

Healthy-diet recipe Website

- These website typically offer a wide range of healthy recipes that are designed to be easy to make, delicious, and packed with nutrients.
- Technologies: EJS, npm, MongoDB.

For-The-Children Website

- Design a website with payment integration, Realistic UI using html, css javascript that will help the charity to collect donations.

Fatigue Detection using ML

- Developed a fatigue detection system using machine learning algorithms to accurately predict driver drowsiness based on facial features and eye movements.
- Implemented real-time monitoring capabilities in the system using Python.

Certification

- Introduction to Web Development with HTML, CSS, JavaScript - Coursera
- Cloud Computing - Coursera
- Programming for Everybody (Getting Started with Python) - Coursera
- Developing Front-End Apps with React - Coursera
- My SQL Basics - Great Learning
- Mongodb Tutorial - Great Learning
- Software Testing - LearnVern

Achievements & Extra Curricular

- President of SPCA(Sophisticated and Perpetual Coders Association) in campus.
- Contribution to The Departmental Newsletter Chronicles Of Techies.
- Secured Rank 4 in Internal SIH Hackathon 2022.
- Secured 2nd Rank in SYMPHORIA 2023 Poster presentation.
